Save money no matter what you drive

Sedans, vans, pick-ups, SUVs. Whatever your business vehicle-of-choice, we deliver the commercial coverages you need to keep them protected—at a rate that respects your bottom line. And, save extra cash with discounts designed for budget-conscious business owners.

Balancing a monthly budget?

You'll find it easier with our variety of payment plans, such as:

- » convenient installment options
- » low initial payments
- » six-month policies

And making those payments is easier, too—simply pay online or by phone with check, credit card, money order or automatic withdrawal (EFT).

Hardworking coverage for hardworking vehicles

If you're a business owner who depends on one vehicle—or a garage full—to drive your business, a commercial policy can help you protect your livelihood. And it could actually save you money compared to a personal auto policy.

Consider a commercial policy if you need coverage for:

- » Ownership types such as partnerships, corporations or sole proprietors with DBA
- » Employees to drive your business vehicles
- » Up to 20 vehicles—we'll cover them on one policy
- » Higher limits than you can get with a personal auto policy—we offer up to \$2 million combined single limit
- » The pick-up or delivery of goods or people
- » Unlimited visits to job sites
- » Vehicles or supplies and equipment of any size or weight

Key coverages for commercial customers

From rental reimbursement to temporary vehicle coverage to roadside assistance, we'll help you create a customized commercial policy to suit all your business needs. And with our broad acceptance of drivers, we'll help you get coverage for all your employees—even the temporary ones.

DID YOU KNOW?

Many vehicles used solely for personal travel aren't covered under most personal auto policies because of corporate ownership, vehicle size and type or higher limit needs. Get coverage for nearly any business vehicle, from small autos to large dumps to oversized pick-ups and more, with Progressive Commercial.
